2020/740

Reading the renewed tire label

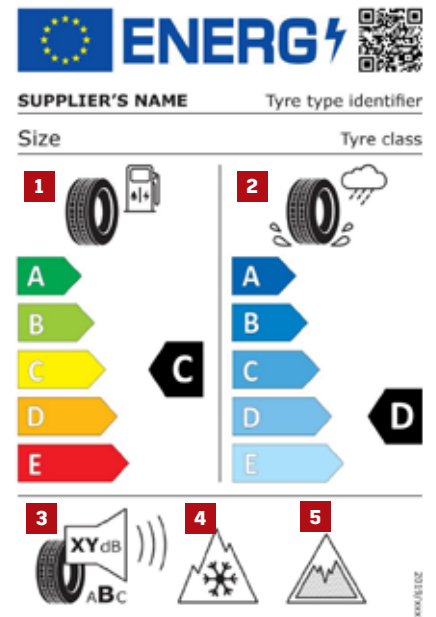

Link to the relevant Commission webpage dedicated to Regulation (EU) 2020/740:
<https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=CELEX%3A32020R0740>

The renewed tire label provides information about the following performance of a tire:

- 1** «Fuel efficiency» shows in 5 classes (A to E) how the tire scores on fuel consumption as a result of the tyre's rolling resistance on the road surface.
- 2** «Grip on wet road surface» indicates in 5 classes (A to E) how well the tire performs on a wet road surface.
- 3** «Noise» gives information in 3 classes (A to C) and in decibels (dB) about the amount of rolling noise of the tire.
- 4** The «snow symbol» shows whether a tire is suitable for use in severe snow conditions.
- 5** The «ice symbol» indicates whether a tire is suitable for use in very severe snow and ice conditions.

The tires under your car affect fuel consumption. The rolling resistance of the tires is responsible for approximately 20% of the car's fuel consumption. If you choose an economical tire with a good score on the tire label component fuel efficiency, you can save money every year. The savings are even greater by also keeping the tires at the correct pressure. To do this, check the tire pressure at least every 2 months and add air if necessary. This also improves grip on (wet) road surfaces, road holding, braking distance and driving comfort and reduces tire rolling noise.

In addition to rolling resistance and tire pressure, the fuel consumption of your car is determined by vehicle weight, engine type, speed and speed changes, air resistance, road slope, mechanical resistance in the drivetrain, use of air conditioning and traffic conditions. However, the most important determining factor for fuel consumption is your driving behavior. With a moderate, energy-efficient driving style, fuel consumption can be significantly reduced. For an optimal energy-efficient driving style, but above all for safety, it is important to always maintain sufficient distance from the vehicle in front, so that you don't have to brake as much as possible and, if necessary, stop in time.

CADILLAC SERVICE

Whether you are at home or on the road, our Cadillac Partners are there to offer you truly personal assistance. Count on them to arrange service appointments, answer questions about your new Cadillac and ensure you are always satisfied with your ownership experience. To find your nearest Cadillac Partner, visit cadillaceurope.com.

WARRANTY

Every Cadillac is built to the highest standards and is manufactured with the utmost care. As a Cadillac owner, you can expect nothing less than premium service and protection. Should you experience defects in materials or through deficient workmanship your entire vehicle is backed by our no excess, Bumper-to-Bumper, Limited Cadillac Warranty for three years or 100.000 km - whichever comes first, plus a 6-year anti-perforation corrosion warranty. Should the vehicle change owner, the warranty transfers automatically during the warranty period.

ROADSIDE ASSISTANCE

Cadillac Assistance provides assistance to Cadillac owners with a wide range of services 24 hours a day, 365 days a year, throughout Europe. These services are available for a period of 36 consecutive months, beginning with the initial "In-Service Date" of each eligible vehicle. Ask your local Cadillac Partner for details.

PLEASE NOTE:

The information contained in this brochure was accurate at the time of going to press (April 2021). Availability, technical features and equipment provided on our vehicles can vary from one market to another and may change without prior notice. The vehicles shown in this brochure are for illustration purposes only. European specifications may vary. Some illustrations feature equipment that is not included in every model. The colors printed in the brochure only approximate actual colors. Specifications, dimensions, measurements, ratings and other numbers in this catalogue and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment.

For precise information on the equipment provided on our vehicles, please contact your local Cadillac Partner.
