Cooper S	Petrol	Manual	192	280	168	142	147	7,4	6,3	6,5	6,9	232	1020	4799

Data are based on base model with standard wheel. An upgrade of options and packages can lead to increased emissions and fuel consumption.

\*Den angivna bränsleförbrukningen och utsläppsvärdena utgår från EU-förordning (EG) 715/2007 i den version som gällde vid tidpunkten för typgodkännande. Värdena avser ett typfordon med grundläggande konfiguration och det visade intervallet tar hänsyn till storleken på hjul, däck och extrautrustning.

\* Värdena är enligt WLTP-körcykeln. Från och med 1 januari 2020 har WLTP helt ersatt den tidigare körcykeln NEDC. På grund av mer realistiska testförhållande – i WLTP är uppmätt bränsleförbrukning, energiförbrukning och koldioxidvärde ofta högre och verklig räckvidd i många fall lägre än med uppmätt NEDC-värde. Andra värden kan gälla vid beräkning av skatt och övriga fordonsavgifter. Du kan beräkna din fordonsskatt på: [www.bilsvar.se](http://www.bilsvar.se)

Mer information om WLTP-körcykeln finns på [www.bmw.se/wltp](http://www.bmw.se/wltp).
