

MG5 Electric

The world's first
electric station wagon

Recharge yourself 

Making room for the future

The future of mobility is electric. As we move into that exciting automotive landscape, there are some things we may want to take with us on the road.

Vacationers need room for their suitcases. Families take the kids to soccer practice. And the neighbours' kids too. Businesspeople need room to carry product samples. Clubs want to stock lots of drinks for the cantina – and a few boxes of snacks. Empty nesters help their kids move out. And then the kids need room when their partners move in.

Everyone is on their way to somewhere, always. And wherever life takes you, the new MG5 Electric can drive you there. Totally electric, totally practical and totally connected, with room to spare.

The world's first electric station wagon

The new MG5 Electric is part of MG's second generation of EVs, and it takes electric driving to the next level. As the first fully electric estate on the European market, this spacious and feature-filled car gives electric drivers more room than ever.

There are a host of features to make your journey easier, including our innovative MG Pilot driver-assistance features and the intelligent MG iSMART Lite suite of connected technologies. And with MG's extensive 7-year warranty, you'll enjoy total peace of mind, journey after journey.

So whether you're going on a family outing or taking a business trip, this forward-thinking station wagon will let you pack everyone you love and everything you need.

The look of the future

The MG5 Electric's stunning, streamlined design builds on MG's new 'Evolution Design' philosophy. This progressive, human-centric approach to automotive mobility combines a practical focus with a high-tech aesthetic – creating a modern, minimalistic look and feel that maximises comfort and minimises distractions.

The bold, chromed strip across the car's face accentuates its spacious dimensions. It extends along the full body length, for a unified look that accentuates the estate's long lines and powerful styling.

Big on space, big on power

With a length of more than 4.5 metres, the MG5 Electric was made for family, work, and everything else. Up to five passengers can travel in comfort with exemplary road handling, while the boot has ample room for everyone's luggage, work materials and other gear.

With 479 litres of storage space in the back, the MG5 Electric lets you bring all your everyday needs. Dropping the 60:40 folding seat gives you a total of 1,367 litres for everything from large boxes and bikes to sports gear. You can also free up space inside by attaching a bicycle carrier or roof box.

The car's 130 kW power lets you accelerate from 0-50 km/h in just 3.4 seconds, while the 280 Nm torque gives you a convenient 500-kg towing capacity, with up to 75 kg of roof load. So you can always comfortably get where you need to be, with everything you need to bring with you.

Getting you there – and back again

The MG5 Electric will take you wherever you need to go. The powerful battery pack delivers a comfortable range of 400 km on a single charge (WLTP-certified).

Also, the car has been designed with smart features to make the most of your range. For example, three distinct levels of regenerative braking increase efficiency and optimise battery charge as you drive.

Powering up for your next trip is hassle-free. Convenient AC fast charging delivers 3-phase 11-kW power to your MG5 Electric, while the DC CCS rapid charger with max 87 kW charging capacity will bring your battery to 80% in just 40 minutes. Enough time to stretch your legs and get a relaxing coffee.

Stay connected & in control MG iSMART Lite is here to help

The convenient MG iSMART Lite suite of connected technologies helps you make the most of every trip.

The MG5 Electric's intelligent functions include:

- Find your vehicle using the smartphone app
- Remote control for certain key functions
- Vehicle health scan
- 10.25" on-board touchscreen for managing car features
- Advanced vehicle control
- Connectivity functions including Bluetooth access

Enjoy every drive

The MG5 Electric lets you travel in comfort and in style. In the front, you can settle in with the six-way adjustable driver's seat and four-way adjustable passenger seat.

In the back, passengers enjoy plenty of headroom and legroom, even behind a taller-than-average driver.

Smart features for a more satisfying drive

From the all-electric powertrain upwards, the MG5 Electric is loaded with features that make your journey easier, smarter and safer. Keyless entry and push-button start make setting off simple. And with a choice of Eco, Comfort and Sport driving modes, the MG5 Electric can adapt to your journey and driving style.

On the road, the 10.25" colour touchscreen puts DAB radio, Bluetooth connectivity, navigation, air conditioning, Apple CarPlay™ and Android Auto™ and many other features at your fingertips – so you can keep track of the traffic in between your favourite playlists or podcasts.

Multiple USB ports let passengers easily charge every device on board. And the handy V2L (vehicle-to-load) system lets you use the car's battery to power external devices like e-bikes or an electric barbecue. And whether you're driving the family or for business, you can look forward to low running costs with the MG5 Electric.

Safe driving with MG Pilot

Our intelligent MG Pilot technology comes as standard on the new MG5 Electric. These innovative driver-assistance functions give you the added confidence of state-of-the-art warning and alert features. The nine safety features include:

- ✔ Automatic Emergency Braking (AEB)
- ✔ Adaptive Cruise Control (ACC)
- ✔ Traffic Jam Assistance (TJA)
- ✔ Lane Keep Assistance (LKA)
- ✔ Intelligent High Beam Control (IHC)
- ✔ Speed Assistance System (SAS)
- ✔ Front Collision Warning (FCW)
- ✔ Traffic Sign Recognition (TCW)
- ✔ Lane Departure Warning (LDW)

Choose your favourite look

The MG5 Electric comes in four eye-catching colours

● Diamond Red (metallic)

● Pebble Black (metallic)

● Medal Silver (metallic)

○ Dover White (non-metallic)

Comfort - black fabric seats

Luxury - black leatherette seats (standard)

Luxury - grey leatherette seats (standard)

Comfort - 16" alloy rim

Luxury - 17" dual-colour alloy rim
